

American Waterworks Association

Capital Area Chapter—Education Division

Katie McNeal: Education Chair
Water & Wastewater EIT at Freese and Nichols

Austin Freiburger: Education Committee Member
Graduate Engineer B at Austin Water

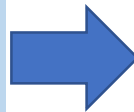

Texas AWWA
American Water Works Association

Who Are We?

AWWA: Non-profit organization of water supply professionals dedicated to providing total water solutions

TAWWA: Texas section of AWWA

CAC: Capital Area Chapter of TAWWA

Education Division: “Water Ambassadors” dedicated to the promotion of Water Education through expertise, resources, utilities, and educators throughout Texas

Texas AWWA

American Water Works Association

How Can We Help You?

Volunteering: The CAC is local to Austin and looking for volunteer/sponsorship opportunities with STEM students!

- Examples: science fairs, career days, training presentations, treatment plant tours

Water Education: The Education Division has many easily accessible resources!

- All Things H2O Blog →
- Water Geek videos →
- Value of Water Campaign →
- Connections to Utilities for school presentations

Check out our website:

Why should a utility build a water museum?

A Note from the Editor *It all started on my lunch break...*

All Things H2O

- Monthly Consumer Outreach Committee Blog
- Latest news on water education in Texas
- Fun, interesting, innovations in industry
- Find on TAWWA website

Texas AWWA

American Water Works Association

Be a Water Geek

- Series of videos about treating and delivering clean water to the community
- Current video about water towers—more to come!

July 28 is National Milk Chocolate Day

It takes 450 gallons of water to make a 3.5 ounce chocolate bar. That's about 10 bathtubs full. I think we can all agree it's worth saving water for chocolate.

Share the value of water.
Become a #TXWaterAmbassador

Value of Water

- Campaign to educate nation about how water is essential, invaluable, and in need of investment
- Imagine a Day Without Water—
October 10, 2018
