

The [Greater Austin STEM Ecosystem](http://www.greataustinstemecosystem.org) fosters deeper collaboration across networks and systems to ensure STEM programming is accessible to ALL students throughout Greater Austin. The learning-centered ecosystem leverages resources supporting STEM education while reducing duplication and amplifying individual organizations and their collective impact.

The vision of the Greater Austin STEM Ecosystem is that:

- PK-16 learners have the opportunity to obtain the requisite STEM skills to enter competitive 21st century STEM jobs in Central Texas
- All educators are provided the tools and support to ensure that students of all ages are STEM competent and STEM literate
